MEMORANDUM

To: Sigma Lambda Beta  
From: Executive Board of Directors  
Re: COVID-19  
Date: March 13, 2020

Our first priority is the health and safety of our Sigma Lambda Beta community. Although there are no known cases within our fraternity, recent events make it clear that we must take additional measures to limit the spread of COVID-19 (novel coronavirus). We will closely monitor updates from the CDC and share weekly updates when available.

Effective today, all Sigma Lambda Beta events are suspended until April 3. This includes:
- All associate member intake meetings and activities including New Member Showcases;
- On or off-campus fraternal events;
- Social gatherings;
- Regional Meetings;
- Non-essential travel for the Executive Office staff members;

We suggest the following recommendations for our members:
- Consider having remote, web-based meetings for meetings;
- For any planned chapter events and programs, review your contracts with vendors to rescheduling or canceling events. Contact the Executive Office about any concerns or issues with rescheduling events.

We appreciate your flexibility during these unprecedented challenging times. We encourage our community to be aware of current updates from the CDC’s website regarding COVID-19.
FAQs

Can we complete intake now?
As of today, all fraternal operations, including Associate Member intake, are suspended.

Can we complete intake after April 3?
We anticipate that intake will resume where they last left off and continue in the spring semester. Flexibility may be necessary concerning University and fraternal policies.

What happens if the suspension goes further than April 3 and through the spring semester?
The fraternity will monitor the situation and will provide updated information as they become available.

Are there any updates with Betacon?
Over the next few days, we'll be working with our partners and experts to determine appropriate actions if needed. We anticipate providing weekly updates as more additional information becomes available.
